SAFETY DATA SHEET
Lithium-Ion Battery

Date: October 31, 2013
Version: 1.0

Section 1 – Product and Company Identification

Product Name: Lithium-ion rechargeable battery
Parts Identification: Rechargeable batteries for Cliplight Hemiplus, 87DCPlus, 450Plus and Clipstrip Aqua;
Part Numbers: 114303, 410190, 87DCPlus, 450DCPlus, 111113
Product Class: Lithium-ion batteries for LED lights
Manufacturer: Cliplight Manufacturing
961 Alness Street
Toronto, ON M3J 2J1, Canada
Telephone: +1 416 736 9036

Emergency Telephone: +1 613 996 6666 (Canutec)

Section 2 – Hazards Identification

NOTE: These lithium-ion rechargeable batteries are sealed units and are not harmful under conditions of normal use as recommended by the manufacturer. The information in this section relates to unusual conditions resulting from abuse in which the battery electrodes and electrolyte are exposed.

GHS Classification
Skin irritation (Category 2)
Skin sensitization (Category 1)
Eye irritation (Category 2)
Single target organ toxicity, single exposure (Category 3)
Carcinogen (Category 1B)

GHS Label elements, including precautionary statements
Pictograms

Signal word
Danger

Hazard statements
H315 Causes skin irritation
H317 May cause an allergic skin reaction
H319 Causes serious eye irritation
H335 May cause respiratory irritation
H350 May cause cancer

Precautionary statements
P280 Wear protective gloves/protective clothing/eye protection / face protection.
P312 Call a POISON CENTER or doctor/physician if you feel unwell.
P302 + P350 IF ON SKIN: Gently wash with plenty of soap and water.
P301 + P330 + P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.
Precautionary statements (continued):

P362 + P352 Take off contaminated clothing and wash before re-use.
P501 Dispose of contents/container in accordance with local/national regulations.

**WHMIS Classification**

D2A  Very toxic material causing other toxic effects  Carcinogen
D2B  Toxic material causing other toxic effects  Moderate skin irritant

Skin sensitizer
Moderate respiratory irritant
Moderate eye irritant

**OSHA Classification**

Hazardous

**HMIS Classification**

Health Hazard: 2
Chronic Hazards: *
Flammability: 2
Physical Hazards: 0

**Potential Health Effects**

Inhalation: May be harmful if inhaled. May cause respiratory tract irritation.
Skin: May be harmful if absorbed through skin. May cause skin irritation.
Eyes: Causes eye irritation.
Ingestion: May be harmful if swallowed.
Other: May cause cancer.

### Section 4 – First Aid Measures

**Inhalation:** Remove person to fresh air.

**Eye Contact:** Remove contact lenses and immediately flush eyes with copious amounts of water for at least 15 minutes. Obtain medical attention.

**Skin Contact:** Immediately wash skin with soap and copious amounts of water. If irritation persists or if contact has been prolonged, obtain medical attention.

**Ingestion:** Do NOT induce vomiting. Wash out mouth with water provided person is conscious. Call a physician.
Section 5 – Fire Fighting Measures

Extinguishing media
Use carbon dioxide, dry chemical powder, or appropriate foam.

Special hazards arising from the substance or mixture
Battery may burst and release hazardous decomposition products when exposed to a fire situation. Hazardous products formed on combustion include cobalt oxide, lithium oxide, copper oxide and aluminum oxide as well as carbon dioxide/monoxide and nitrogen oxides. Hydrogen fluoride and hydrofluoric acid may be present.

Advice for firefighters
Self-contained breathing apparatus and protective clothing as required.

Section 6 – Accidental Release Measures

Personal Precautions
Wear chemical-resistant gloves and chemical safety goggles. Use suitable respirator when high concentrations of vapours or fumes are present.

Environmental Precautions
Shut off all sources of ignition. Ensure adequate ventilation. Prevent runoff to sewers and waterways.

Methods and materials for containment and cleaning up
Sweep up using a method that does not generate dust. Collect as much of the spilled material as possible, placed the spilled material into a suitable disposal container. Dispose of waste as in Section 13.

Section 7 – Handling and Storage

Precautions for safe handling
Do not short batteries or install with incorrect polarity. Keep in original packaging until use. Batteries may explode or cause burns if disassembled, crushed or exposed to fire or high temperatures. Wash hands after handling. Keep away from food and drink.

Conditions for safe storage
Store in a cool, dry, well-ventilated place. Keep away from heat, sparks, flame and moisture. Avoid extended exposure to sunlight.

Section 8 – Exposure Controls / Personal Protection

Engineering Controls: Have eye bath available. Use non-sparking tools.

Protective Equipment: Wear chemical-resistant gloves and chemical safety goggles.

Hygiene: Follow good industrial hygiene procedures. Keep away from food, beverages and feed. Wash thoroughly after handling. Wash contaminated clothing before re-use.

Section 9 – Physical and Chemical Properties

Appearance: Blue or green
Odour: None
Odour threshold: No data available
pH: No data available
Melting point/freezing point: No data available
Initial boiling point/boiling range: No data available
Flash point: No data available
Evaporation rate: No data available
Flammability or explosive limits: No data available
Vapour pressure: No data available
Vapour density: No data available
Density: No data available
Solubility: No data available
Partition coefficient: No data available

n-octanol/water: No data available
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Viscosity: No data available

SAFETY DATA SHEET
Lithium-Ion Battery

Date: October 31, 2013
Version: 1.0

_________________________________________________________________________________________________________

Section 10 – Stability and Reactivity

Chemical stability: Stable under recommended storage conditions.

Possibility of hazardous reactions: Remote when battery is in undamaged condition.

Conditions to avoid: Moisture; heat, flames and sparks. Do not incinerate.

Incompatible Materials: Acids, bases, strong oxidizing agents

Hazardous decomposition products: Fire produces carbon monoxide and dioxide, lithium oxide, copper oxide and aluminum oxide fumes. Hydrogen fluoride and hydrofluoric acid may be produced.

Section 11 – Toxicological Information

The toxicological properties of this product have not been investigated. Information for components is provided below.

Acute toxicity

Intraperitoneal LD50 mouse: copper - 3.5 mg/kg

Subcutaneous LD50 rat: diethyl carbonate – 8500 mg/kg

Oral LD50 rat: 1,3-dioxolan-2-one - 10,000 mg/kg
        dimethyl carbonate – 13,000 mg/kg

Dermal LD50 rabbit: 1,3-dioxolan-2-one >3000 mg/kg
        dimethyl carbonate >5000 mg/kg

Skin corrosion/irritation
No data available

Serious eye damage/irritation
No data available

Respiratory or skin sensitization
No data available

Germ cell mutagenicity
No data available

Carcinogenicity

lithium cobalt oxide: IARC 2B-Group 2B: Possibly carcinogenic to humans

diethyl carbonate: Equivocal tumorigenic agent by RTECS criteria
        Not identified as a human carcinogen by IARC
Section 11 – Toxicological Information (continued)

Reproductive toxicity

diethyl carbonate: Developmental toxicity- hamster – intraperitoneal:
  Effect on embryo or fetus – fetotoxicity
  Specific developmental abnormalities - craniofacial

Specific target organ toxicity – single exposure

graphite - May cause respiratory tract irritation
diethyl carbonate – May cause respiratory tract irritation

Aspiration Hazard

No data available

Potential Health Effects

Inhalation: May be harmful if inhaled. May cause respiratory tract irritation.
Skin: May be harmful if absorbed through skin May cause skin irritation.
Eyes: Causes eye irritation.
Ingestion: May be harmful if swallowed.
Other: May cause cancer.
Target organs: Lungs

Section 12 – Ecological Information

Aquatic Toxicity

No data available

Persistence and degradability

No data available

Bioaccumulative potential

No data available

Mobility in soil

No data available

Other adverse effects

No data available

Section 13 – Disposal Considerations

Product and Contaminated Packaging

Contact a licensed professional waste disposal service to dispose of batteries, electrodes, electrolyte or contaminated packaging.
Do not incinerate batteries. Observe all federal, state, and local environmental regulations.
Section 14 – Transport Information

This battery has been tested to ensure compliance with subsection 38.3 of the UN Manual of Tests and Criteria. It meets the requirements of packing instruction 965 of IATA.DGR for transportation and special provision 188 of IMDG and DOT 49CF 173.02. This product is not classified as dangerous goods for transport.

Lithium batteries must be protected from short circuit during shipping. Keep in original packaging. Confirm no leakage from a container. Protect from moisture and rough handling. Do not ship damaged containers.

Section 15 – Regulatory Information

All components of this product are on the Canadian Domestic Substances List (DSL).

All components of this product are listed in the U.S. Toxic Substances Control Act (TSCA) Inventory.

All components of this product are on or in compliance with the Australian Inventory of Chemical Substances (AICS) Inventory.

Section 16 – Other Information

All information appearing herein is based upon data obtained from manufacturers and/or recognized technical sources. While the information is believed to be accurate, we make no representations as to its accuracy or sufficiency. Conditions of use are beyond our control therefore users are responsible for verifying the data under their own operating conditions to determine whether the product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product. Users also assume all risks in regards to the publication or use of, or reliance upon information contained herein. This information relates only to the product designated herein, and does not relate to its use in combination with any other material or process.
